

DISASTER CAN STRIKE, BE READY

Having been in the dentistry industry for over 37 years, we know how hard you've worked to build and grow your practice. All of those years of experience have also taught us that a major fire, a flood or a break-in can have repercussions on your plans for months or even years.

The goal of our dental office insurance is to adequately protect your most valuable assets and help you ensure business continuity in the event of a disaster. The daily activities of a dental clinic are very specific and taking them into consideration is essential when coming up with a plan to minimize the aftermath when disaster strikes.

If, for example, a pipe bursts and causes water damage inside your clinic: have you considered the costs of a clean-up and repairs? What if the city cuts the water for several hours: do you know how this will affect your business? In short, in case of a major incident, do you have a plan? Above all, are you certain you are properly covered?

Whether we are talking about stopping your professional activities (for a short time or a little longer), or about replacing equipment or materials... The impact of such an incident can be felt for a long time after the event itself. By discussing your current situation as well as your projects with your insurance broker, you will be able to come up with the insurance coverage that fits your needs and that will help you keep the course to reach your business goals, no matter what the future holds.

Contact your Sogedent broker to know more about how you can protect your clinic.

THERE TO LISTEN, THERE TO HELP

OUR BROKERS ARE CLOSER THAN EVER

Many of you have taken the time to tell us you would like it if your damage insurance claims were taken care by a single person. Well, we heard you loud and clear: we've since changed our claims processes. As of now, when you contact us, you will be directed to your own broker. You will be sure that the person taking care of your claim will know the details of your files and know your situation thoroughly to better answer your questions and make sure everything goes smoothly.

GOOD NEWS, GREAT MEETINGS AND WINNERS

Over the last few weeks, good news just keep coming for Sogedent. Springtime may have taken its time to come to town, but we've shaken the cold season's dullness is long gone from our offices! Here are a few of our reasons to smile:

Journées dentaires internationales

It's always a pleasure to go back to the Journées dentaires internationales and this year was no different. As is always the case, our team met with great new people, renewed old connections and had several enlightening conversations! Many thanks to the organizers and to all of the participants that made this edition a resounding success!

Sogedent award

Once again, we were thrilled to partner with the Soirée des prix d'excellence of the Faculté de médecine dentaire of Université Laval, which took place on April 26th. The Prix de la collaboration professionnelle was awarded to five exceptional students of the general dentistry practice program. The laureates are Vanessa Dufour, Marianne Bouchard-Asselin, Fanny Morin-Roy, Samuel Pelletier and Josée Roy-Lafrance (absent: Charles Tremblay). Sogedent is very proud of its commitment in supporting young dentists. Congratulations!

Facebook contest

We can finally announce the name of the winner of our Facebook contest: Frédérique Montpetit! The draw happened April 11th. Congratulations Frédérique!

OFF FOR THE SUMMER

Our newsletter will be back at the end of the summer. Until then, we hope you'll enjoy a splendid summer!
